

PRODUCT OFFERINGS

SwiftWall began with the idea to provide a reusable, fast, and simple temporary wall and construction barrier structure. Our lightweight system is easy to install, remove, and relocate, providing professionals in the construction industry with tools that make their lives safer and more productive.

All sales shall be subject to and incorporate Signature Walls Solutions, Inc. dba SwiftWall® current Terms of Sale, which can be found at <https://swiftwall.com/terms-of-sale/>. Customer and end-user shall be solely responsible for installation methods and compliance with all applicable federal, state and local laws, statutes, regulations, ordinances and building codes.

PANELS

Isolate and contain any worksite with SwiftWall Panels. Made of ABS (Class A fire-rated material optional) and featuring a R7 insulative value, our non-hydroscopic SwiftWall Panels also help keep the noise down with a STC21 sound rating.

Standard Panels are manufactured to a sturdy 4' wide and 1" thick, and come in heights of 4', 8', 10', 12' and 16'. Panels can be stacked as high as required by using C-Channels and a support skeleton such as metal stud framing. Consult with a SwiftWall sales representative for more information.

Standard Sizes:

4'
8'
10'
12'
16'

All standard sizes are manufactured to 4' wide by 1" thick

Weight:
